VIC ANDAM

Software Engineer | Full-Stack PHP / Laravel Developer

Philippines (Remote) | vicajobs@gmail.com | https://vicandam.dev

PROFESSIONAL SUMMARY

Software engineer with 7+ years of experience across web development and quality assurance, including 6+ years working with PHP and Laravel. Experienced in SaaS feature development, REST APIs, third-party integrations, relational databases, automated testing, and cloud deployment. Collaborates with distributed teams and builds maintainable, secure applications from development through deployment.

TECHNICAL SKILLS

Backend: PHP 8.x, Laravel (including Laravel 12), REST APIs, OAuth 2.0, webhooks, Laravel queues

Frontend & mobile: JavaScript, TypeScript, Vue.js, Nuxt 3, Pinia, Bootstrap, Tailwind CSS, React Native, Expo

Data & infrastructure: MySQL, SQLite, Redis, AWS EC2, Linux/Ubuntu, Nginx, Docker, Git, GitLab CI/CD, GitHub Actions

Quality & integrations: Automated and regression testing, API integration testing, Maestro E2E, Xendit, GoHighLevel, ServiceTitan, CallRail, Zapier, SendGrid

PROFESSIONAL EXPERIENCE

Freelance Software Developer / QA | MCT Netzwerke

Remote | Dec 2025 - Apr 2026

- Provided web development and QA services across two projects: Charge Circle and Cosmos, including feature development, bug fixes, testing, and local development setup.
- Contributed to sprint-based development and quality assurance, investigating issues and validating application changes.

Full-Stack Web Developer | Real Time Marketing

Bradenton, Florida, USA (Remote) | Nov 2022 - Oct 2024

- Developed and maintained SaaS features using Laravel, Vue.js, Bootstrap, jQuery, and MySQL, collaborating with product teams on requirements and database design.
- Integrated ServiceTitan, CallRail, Zapier, SERP APIs, and SendGrid to support customer data synchronization, automated review requests, keyword tracking, call analytics, and notifications.

Software Engineer (Laravel / Vue.js) | THEDIGITAL OÜ

Tallinn, Estonia | Jun 2020 - Jul 2023

- Built a Laravel application from the ground up, implementing core features, deploying to AWS EC2, and configuring GitLab Runner CI/CD pipelines.
- Developed a React Native mobile application backed by a Laravel REST API.

PROFESSIONAL EXPERIENCE (CONTINUED)

Web Developer (Laravel / Vue.js) | Zeraus Mind Tech Software Co.

Iligan City, Philippines | Apr 2019 - May 2020

- Developed web and mobile applications with Laravel, Vue.js, and React Native; maintained application security and performance after launch.
- Tested interfaces for responsiveness, usability, and functionality.

Web Developer (Laravel / Vue.js) | Easimpt

Cagayan de Oro City, Philippines | Aug 2019 - Feb 2020

- Updated existing PHP and Vue.js code and collaborated with marketing and design teams on project milestones and website components.

QA Analyst / Web Developer | Fligno Software Philippines Inc.

Cagayan de Oro City, Philippines | Feb 2017 - Apr 2019

- Created, executed, and documented test cases; developed automated testing systems and evaluated results.
- Identified feature interaction and code issues, communicating defects and supporting software quality improvements.

SELECTED INDEPENDENT PROJECTS

RiseUp Payments | Payment Integration Platform

2026 | Laravel, GoHighLevel, Xendit | In development

- Develop a custom payment-provider integration for GoHighLevel, including OAuth authorization, merchant account scoping, checkout flows, provider APIs, and webhook-based transaction status handling.
- Implement and test payment verification, security controls, and recurring payment flows; maintain deployment workflows and regression coverage.

RiseUp Growth Academy | Personal Development Platform

2026 | Laravel REST API, React Native / Expo | In development

- Develop a mobile-first personal development application with a Laravel API and React Native/Expo frontend, using TypeScript and authenticated REST endpoints.
- Implement automated testing and Android end-to-end validation with Maestro; work on staging deployment, infrastructure security, and application hardening.

RiseUp SEO | SEO Analytics and Automation Platform

2026 | Laravel, React, Inertia.js, Google Search Console, SerpApi | In development

- Develop SEO workspaces, search analytics and rank-tracking workflows, including OAuth-protected MCP tools, encrypted API account management, quota controls, and automated testing.

EDUCATION

Bachelor of Science in Information Technology | Mindanao State University - Naawan

Jun 2010 - May 2017

Thesis: Medical Record Management System (patient records, billing, room management, and medicine dispensing).

LANGUAGES

English, Filipino, Cebuano
